Short Learning Programme on
ARTIFICIAL INTELLIGENCE AWARENESS

The Tshwane University of Technology and TETA are offering a Short Learning Programme titled Artificial Intelligence Awareness. This SLP forms part of the Intel© Artificial Intelligence for Future Workforce programme. AI skills are becoming one of the most sought-after emerging skills in the job landscape in the digital economy. There is a need to build the necessary skills in Artificial Intelligence for enhanced employability to drive long-term competitiveness. Through this SLP, it is expected that participants will be equipped with the technical confidence to learn and apply AI skills independently. The SLP will consist of the following Learning outcomes:

1. Unit 1: Emerging Technologies – AI
2. Unit 2: AI Made Easy – Demystification
3. Unit 3: What is inside AI
4. Unit 4: Embracing AI
5. Unit 5: Inclusive AI
6. Unit 6: Control your AI Destiny.

ADMISSION REQUIREMENTS

This programme does not require any background or level of expectation. However, it is assumed that the participants registering for this programme have an English reading and writing ability equivalent to an NQF Level 4 and must be computer literate. The programme will be presented online and there will be no cost for candidates that are successfully selected to attend the SLP.

CERTIFICATION

A certificate of completion will be issued to attendees who have successfully completed the SLP.

IMPORTANT DATES

23 June 2025 — Application Submission Deadline

25 June 2025 — Notification of Outcome of Application

27 June 2025 — Date of Short Course (1 day)
