

26 May 2023

Dear Stakeholders

NOTIFICATION OF TETA TRANSITION TO A NEW SYSTEM

The Transport Education Training Authority (TETA) will be migrating from the current Information Management System to a new Information Management System, effective **01 June 2023**. The change in service providers and mapping of the new system has necessitated downtime which may affect each of our stakeholders. In essence, the current indicium system will not be accessible for edits or adding of information from **01 June to 30 June 2023**. During this period, TETA will be migrating data from the current system to the new system and as such, the following services will be suspended:

- Enrolment of Learners
- Uploading of Learner Assessments
- External Moderation Applications
- Training Provider User Registration
- Printing of Learner SORs and Certificates
- Online Registration for Providers, Assessors and Moderators

The system is expected to go live again from 01 July 2023 with system training for stakeholders scheduled for the period between 10 – 31 July 2023.

TETA further extends an apology for the late notification and expected interruption of service. Our team will endeavor to address your enquiries with the utmost levels of professionalism and due care.

Below is the tentative schedule for the planned system training workshops with contact details for your ease of reference should you have specific enquiries during this transition period:

Province	Date	Venue	Start Time	Contact Person, telephone and email address
